WORK EXPERIENCE

Aug 2021 - Oct 2021

FRONT END DEVELOPER INTERN, QUELLXCODE (PVT) LTD.
• Worked as **front-end Software** Engineer writing efficient and responsive **React components** for web apps.
• Fix error which are created in simple **HTML, CSS and JavaScript** etc.
• Added a beautiful carousel on the deployed website.
• As a task, Built a website in pure **JavaScript** without HTML and CSS pages.

July 2021 - present

FREELANCING,
During the university, I started working on a different platform as a **developer**.

EDUCATION

September 2022

BS SOFTWARE ENGINEERING, CUST (CAPITAL UNIVERSITY OF SCIENCE AND TECHNOLOGY, ISLAMABAD)

Courses: OOP in C++/JAVA, Data Structure, Operating System, Enterprise Application Development, IoT, Artificial Intelligence, Data Science

PROJECTS

Web App
- ❖ Love to develop front in ReactJS and backend with Nodejs, Expressjs with MongoDB and also backend in Springboot with MySQL database.

1. Ecommerce WebApp (NextJS(React) with Stripe payment)
   - DEMO: https://buy-now-ecommerce-store.vercel.app/
   - GitHub: https://github.com/Mujtaba4li/BuyNow-ecommerce-store
2. Portfolio website (MERN stack)
   - DEMO: https://mujtaba-ali.vercel.app/
3. Memories A post (MERN stack)
   - DEMO: https://eloquent-beignet-f03ed6.netlify.app/
4. Admin Dashboard (ReactJS)
   - DEMO: https://admin-dashboard-fyp.vercel.app/dashboard
5. E-commerce (Wordpress)
   - DEMO: https://jadidcreation.com/

Mobile App

❖ It's amazing to develop Mobile applications and if they are **cross-platform (Android & IOS)** then It's wow. I love to develop with React Native and want to explore more about Mobile apps. Pak Deliveroo Mobile app (React Native)
   - DEMO: https://vimeo.com/756063945
   - Git repository: https://github.com/Mujtaba4li/Pak-Deliveroo-React-Native

IOT project   *Semester Project*

❖ I build the Smart Parking System as a semester project with Arduino UNO and with IR sensors to detect the object and then they pass the signal to Arduino then It displays a message on LCD that the car is parked on the slot (1,2,3....) and also LCD displays message where the slot is available where the slot is unavailable. If parking is full the barrier will not open and show the message on the LCD parking is full.
   • Demo: https://vimeo.com/740587964

Desktop Application   *Semester Project*

❖ I create the Grocery Store Management System desktop application as a semester project. In which login base where admin and cashier login is to be used and they act accordingly. Admin can perform full CRUD operation. He can add, delete, view, and update the cashier. Similarly, the cashier can perform his actions such as adding, deleting updating, and viewing items, etc.
   • Full Application: https://github.com/Mujtaba4li/GS-management-system-DESKTOP-APP
